III – Reading Comprehension

Read the following passage and Answer the following questions:

(10 M)

- 1- Plant cells have an extra layer called a cell wall that surrounds each cell's membrane. The cell wall is much stiffer to help the plant's stems stand up and support things like leaves and flowers. On the other hand, the organelles, such as ribosomes, which make proteins; lysosomes, package up proteins to get them ready to be sent to various parts of the body.
- 2- Any acceptable answer.
- 3- Cells don't convert sugar and oxygen into carbon dioxide and water. And so it will not release energy for the cells to use.
- 4- Any acceptable answer.
- 5- Organelles.

IV- Composition

Write a paragraph on ONE only of the following:

(10 M)

Any acceptable paragraph
